

LINGUISTICS

AT THE UNIVERSITY OF TORONTO

ABOUT THE DEPARTMENT

Originating in 1967, the Department of Linguistics offers graduate degree programs (M.A. and Ph.D.) in three areas: Theoretical Linguistics (generative grammar: phonetics, phonology, morphology, syntax, semantics, pragmatics), Language Variation (sociolinguistics, dialectology, language variation and change), and Psycholinguistics (language acquisition, comprehension and production).

The department is part of an energetic academic community that includes numerous linguistic colleagues throughout the university itself and in neighbouring universities.

The Department of Linguistics guarantees financial support packages of at least \$15,000 plus tuition and fees to eligible doctoral-stream students for up to five years of study (1 year at the M.A. level and 4 years in the Ph.D. program).
